

STAT

16 June 1977

MEMORANDUM FOR: Assistant for Public Affairs
SUBJECT : Publicity on CIA Soviet Oil Estimates
REFERENCE : DD/OER Memorandum, dated 14 June 1977,
Proposed Press Statement on Energy
Study

STAT

1. In the referenced memorandum to you from [redacted]
[redacted] we described the various coming opportunities
for positive publicity on CIA estimates of Soviet oil.
I have since obtained additional information on the
meeting at Commerce scheduled for 29 June 1977 which
indicates that this should be a golden opportunity to
spell out and publicize our views and the basis for them.
The occasion will be a meeting of Commerce's Advisory
Committee on East-West Trade (see the Attachment). I
have been advised that Commerce wants to use the meeting
primarily to thoroughly air the CIA forecasts of Soviet
oil production, demand, and trade. They expect to
invite members of the responsible press, such as
Business Week and the Wall Street Journal. Members of
the embassies of Communist countries normally also
attend these meetings.

STAT

2. We have agreed to give a presentation and also
plan to make available at the meeting a detailed
unclassified study of major aspects of the Soviet oil
problem (reserves, production, and technology) and an
unclassified version of the recent paper on Chinese oil.
In view of the fact that the DCI's Joint Economic Committee
testimony would not have been released in unclassified
form by that time, we would deal with the implications of
the oil problem for the Soviet economy only in general
terms.

STAT

STAT

3. We feel certain that this meeting will result in a great deal of publicity, and we hope that it will help to dispel some of the misimpressions that have been fostered by uninformed press coverage.

MAURICE C. ERNST
Director
Economic Research

Dear Admiral Turner:

Thank you so much for sending me a copy of the CIA study on the international energy situation.

I very much appreciate having this document and the wealth of information contained in it, and I am sure members of the public interested in this subject share my enthusiasm for your attempt to offer an unclassified version of the report.

With best wishes, I am

Sincerely,

Edward W. Brooke

Dear Admiral Turner:

Thank you for your thoughtfulness in sending me the CIA study, "The International Energy Situation: Outlook to 1985."

Your decision to declassify this material was timely in light of this nation's renewed commitment to energy independence. I am certain that this study will be of considerable value to me throughout deliberations on this subject.

Thank you again,

Very truly yours,

Dear Admiral Turner:

Thank you for your letter of 18th April and enclosed information concerning the CIA study report on "The Energy Situation: Outlook to 1985."

I am very concerned regarding the implications for our nation's future and security of the indications and conclusions of this report.

Regardless of inherent error factors in making projections such as this, it is readily apparent that our world is rapidly diminishing very finite known sources of petroleum and remedial programs must be implemented if our nation is to minimize the negative affects of inevitable shortages and not be at a possibly disastrous energy disadvantage in the world.

I appreciate your declassifying this valuable information and sharing it with me.

With personal regards,

Sincerely,

ANTONIO B. WON PAT
Member of Congress

Dear Admiral Turner:

This is to acknowledge and thank you for your letter of April 18 and for sending me a copy of the study regarding international energy supplies and needs.

The availability of this study to the public is important in keeping the general public apprised of our future energy needs and projected reserves. Although I did find the information you provided to be somewhat startling, I am glad that it is available and that I was able to read your energy projections for 1985.

Thank you again for keeping me informed of your study in this area.

Admiral Stansfield Turner, U.S.N.
Director
Central Intelligence Agency
Washington, D. C. 20505

Dear Admiral Turner:

Thank you for sending me a copy of the CIA study entitled,
"The International Energy Situation; Outlook to 1985."

I appreciate your courtesy in providing me with this report,
as its conclusions are important to national energy policy.

With best wishes,

Cordially,

TED STEVENS
United States Senator

Dear Admiral Turner:

Thank you very much for sending me a declassified copy of the CIA report entitled "The International Energy Situation: Outlook to 1985." This timely document will be of great use to me during the debate of national energy policy.

Sincerely,

Howard H. Baker, Jr.

THE WHITE HOUSE
WASHINGTON

77-1258

APRIL 29, 1977.

In each period of our history, the nation has responded to challenges which have demanded the best in all of us.

This is one of those time.

Our energy crisis is an invisible crisis, which grows steadily worse—even when it is not in the news. It has taken decades to develop, as our demand for energy has grown much faster than our supply. It will take decades to solve. But we still have time to find answers in a planned, orderly way—if we define the changes we must make and if we begin now.

This report explains why we have to act, and gives you the details of our Plan. The Plan is complicated. I am sure that many people will find some feature of it they will dislike along with features they can support. But it is a carefully balanced Plan, which depends for its effectiveness on all of its major parts.

Above all it is fair. Our guiding principle, as we developed the Plan, was that none of our people should be asked to bear an unfair burden, and none should reap an unfair advantage. There will be sacrifices, but they will be gradual, reasonable—and fair.

The changes the Plan recommends will mean a new direction in American life. In some cases heading in that direction may seem inconvenient. But I have faith that meeting this challenge will make our lives more satisfying.

We can rediscover the ingenuity and the efficiency which have made our nation prosper, rather than deepening our dependence on insecure imports and increasingly expensive conventional energy supplies. We can rediscover small-scale, more creative ways of satisfying our needs. If we are successful, we can protect jobs, the environment, and the basic American standard of living, not only for ourselves but also for our children and grandchildren.

I know that, if we work together as a united people, we will succeed.

The National Energy Plan
